Lay aside your knife and razor. No more digging and tugging and wincing, no more blinding and dangerous blood poisoning. "GETS-IT" never hurts healthy feet; it is safe, painless, quick, simple, sure. For warts, callouses and bunions, too.

Bill to Provide For Their Annexation to Postal Service.

Washington, Oct. 2—Government ownership of telegraph and telephone lines is to be proposed in bills Representative David Lewis is drafting now for introduction in the house probably within a month.

Through the measure, which would have these public utilities taken over as a part of the postal service, have not been made an administration policy, the president is known to have discussed the idea with Representative Lewis and others interested in the project.

As compared to that little switchboard, long since discarded, the new seven-position one in the new telephone building is a marvel and marks a stride forward in telephone equipment. This new board has a capacity of 1,600 subscribers' circuits. To the ordinary and unfamiliar observer it is an electrical wonder, with its shining signal lights and many complex parts.

The service that will be given through it will be as high class as is given anywhere.

ITCHING AND BURNING RASH

Started on Chest. Then on Left Shoulder and Arm. Nearly Driven Crazy. Used Cuticura Soap and Cuticura Ointment. Rid of Rash.

394 Anawan St., Fall River, Mass.—"My trouble started mostly on the front of my body and on my chest. It was just brown spots at first and I looked like a leprosy patient, and then they seemed to run in together and they looked like a rash of some kind. It did not trouble me for almost a year and then my upper lip and my face right near my eye began to itch and it was itching and burning all the time. I used on it and it dried it up, but that was not good when the same rash broke out on my left shoulder and on my left arm and it nearly drove me crazy. I could not sleep and I could not do anything. I scratched and it made it go into sores on my back and face. My clothing irritated it something awful. I could not bear anything to touch my back at all for two weeks and it would make it itch and burn so badly I would cry out and have to take my clothes off."

"I tried — and that did not do any good. I thought I would go out of my head the way I was. But after I used Cuticura Soap and Ointment they seemed to ease me. I only used two cakes of Cuticura Soap and two boxes of Cuticura Ointment and it took two months to get rid of the eruption."

(Signed) Mrs. Katie F. Silva, Apr. 12, 1913. Cuticura Soap 25c. and Cuticura Ointment 50c. are sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

When you have and share with Cuticura Soap will find it best for skin and scalp.

IMPORTANT CHANGES AT

The Wauregan House

On or about October first it is the intention of the management of "THE WAUREGAN" to abandon the American plan system of feeding and to continue on the European plan entirely. This is the course pursued by nearly all the Hotels in the country, and is considered to be the most equitable for both the public and the management.

With the above end in view we will close our American plan dining-room on Saturday, October 4th, after which date no meals will be served except on the European plan.

We take pleasure in thanking the public generally for their liberal patronage and kindly feeling extended to us during the many years of our management, and hope for a continuance of the same under the new plan.
